As Wayne told me off-camera, "guitar solos are out of style." Styles may change, Wayne, but style doesn't, and Major Stars are one of the world's most brilliant live bands. It sucks for those not living locally though.

As I watched the Major Stars show I turned to my friend Ben and told him how lucky I felt to live in such an awesome music city. Boston really is easily in the top 3 music scenes in the USA when you factor in quality over quantity. Major Stars by all means should be mega worldwide superheroes: Wayne and Kate - the duo at the core of the group - have years of experience in bands and operating their fantastic little record shop, Twisted Village.
