This very special episode of *The Eye* features an intimate interview with [Jessica](#) at her home studio in Toledo, along with live footage taped by Benoit Lesieux in Paris in 2002, Annie Feldmeier Adams in Chicago in June, and Mike "D" and Jon Whitney at [Stormy Records](#) in November.

Jessica is currently at work on her fourth solo album and provides some insight to her process and working with others. While this online version is approximately 40 minutes, an extra 20 minutes (featuring entire songs and more footage) may surface very shortly on a special DVD edition along with the [Windy & Carl](#) performance also captured that night at Stormy Records.
