24 new paintings have been uploaded to the artwork portion of the [Little Annie site](#). All the new paintings are watercolors from 2001. Annie says, "I was working on a series on God and Science during a trip to Mexico, which I returned to NYC from on the 10th of September 2001. The disaster of the Sept. 11th pre-empted further work on that series hence going back to my beloved skyline."
