---

I.D.E.A.L describe their music festival as &quot;unclassifiable, surprising music—hard to find but essential stuff with eclecticism as the rule.&quot; In the same spirit, the I.D.E.A.L Festival proposes exclusive projects to its artists to be premiered in France. Invited to this year's festival, Jack Dangers has been set the 'task' of creating a new original soundtrack for the classic, cult Sci-Fi-er, &quot;Forbidden Planet.&quot; Jack Dangers will present his interpretive film score in live performance against a theatrical screening on Saturday, March 6th (8:30 P.M). at Le Lieu Unique in Nantes, France.
