The latest CTI newsletter announces that the entire Conspiracy International (CTI) back catalogue is now available as downloads from iTunes and eMusic. When all is said and done, the collection will feature 25 years, 32 albums, 10 EPs and literally hundreds of tracks from Chris & Cosey, Cosey Fanni Tutti albums, Chris Carter albums, Conspiracy International albums. Download-only tracks will also be featured later on in the year. Also look for a Carter-Tutti performance to be announced for later in the year (in Europe somewhere in November) and if you're in London, you can catch Cosey's film Confessions Projected at the Tate Triennial Symposium.
