In addition to critically-acclaimed releases on Strange Attractors, Badabing!, and K Records, Landing members also record under the guise of Surface of Eceyon and release a small amount of music under The Music Fellowship label. This footage was taken at the amazing Terrastock 6 festival, and we talk about the love at Terrastock, being music nerds, and all that other mushy stuff. They'll be performing at [Brainwaves](#) this year so now's a good chance to see what they're all about.
