A humble compendium of guitar music from across nine separate compilations & regional issues, including pieces from the Tu M'p3 web-series, the *E • A • D • G • B • E* disc on 12k (along with an earlier, shorter version of the same), the *2nd Early Monolith* business-card disc on Twisted Knister (available briefly in a cigarette vending machine in Bremen ca. 2005), the *Brainwaves* compilation on Brainwashed, the *I Don't Think The Dirt Belongs To The Grass* boxed set on Carbon, the *Idioscapes* on Idiosyncratics (plus a completely different alternate take), an unrealized Bodies of Water Arts & Crafts fundraiser-set, the *Fabrique* disc on Room40 (plus an alternate, separate piece recorded at the same time, never issued), and finally the *Beaterblocker #2* compilation.
