---

*Impedance*, an entirely instrumental album spanning 4 sides, contains powerful rhythmic sequences, heart-beating frequencies and hypnotic loops that are paradoxically encapsulated in carefully crafted compositions which are full of secret passages and hidden doors. Kalancea's work creates ungraspable sonic experiences, which take us over, immersing us in powerful and mind altering soundscapes.

There's no quick payoff on *Impedance*. This is the sound of new, patient electronic music full of depth and substance.

Alina Kalancea is a Romanian sound artist and composer based in Modena, Italy. She has studied sound design and synthesis with Enrico Cosimi and collaborated with producer Alex Gamez, and artists Julia Kent and Raven Bush.
