Daniel Garcia launched hollyfeld.org in 1995. In a world before multinational multibillion dollar social media empires, Dan provided a place for numerous communities to flourish. Hollyfeld.org began hosting the email discussion lists for [Coil](#) , [Meat Beat Manifesto](#) , [The Legendary Pink Dots](#) , [Cabaret](#) , [Voltaire](#) , and [Throbbing Gristle](#) , among others, all out of the kindness of his heart, all 100% free of cost and advertisements. All lists remain active however the future is uncertain.

Daniel and Yulia lived life to the fullest, were active in photography, travel, digital arts, and remained supportive of the brainwashed music community. Our hearts go out to their closest family and friends. We will miss you dearly.
